frothing steam wand

Dr.coffee Coffee Master 200

Coffee Master 200 is one of the flagship models applied in the commercial chain field. Equipped with ultra-strong configurations, it excels in beverage production quality, efficiency, and operational intelligence. Featuring a metal body and elegant design, it empowers coffee business scenarios in various aspects.

Master Quality

Utilizing a 28g large-capacity brewing chamber, it produces high-quality Americano with a rich taste and large volume. Swiss-made Ditting metal burrs bring out the best flavor of coffee beans. With a professional milk pump, it ensures stable production while providing more options for cold milk beverages. The faster and more precise speed control results in denser and richer milk foam.

Master Intelligence

Intelligent grinding adjustment allows the coffee machine to self-calibrate for the optimal state of the grinder disc. The automatic steam wand makes frothing milk easier and more efficient. The smooth and intelligent operating system ensures that anyone can make coffee effortlessly. Additionally, Coffee Master is equipped with automatic cleaning and milk shortage detection functions.

Master Speed

With a dual grinding system, both grinding components work simultaneously, doubling grinding efficiency. The dual boiler configuration, with separate steam and hot water boilers, ensures more efficient coffee production. Coffee Master is also equipped with a professional rotary pump, effectively enhancing the speed and stability of coffee production.

Master Style

Featuring a full metal body, dual bean hopper design, independent hot water wand, and a large fingerprint-resistant fully bonded screen, Coffee Master offers a professional and visually appealing experience in terms of both appearance details and functional configurations.

Feature

- Separate hot water spout
- Smart Steam Rod
- Quick disassembly of metal brewer
- DIY coffee
- Coffee & Milk outlet at same time
- Bottled water self-absorption
- Tap water supply
- Intelligent fully automatic cleaning
- IOT System E-Paynet

Technical sheet

Bean hopper capacity (g)	1200*2
Grounds box capacity(g)	1000
Display orientation (Lateral)	10.1"
Rated voltage (V)	380
Rated frequency(Hz)	50/60
Rated power (W)	5100
Machine weight (kg)	57
Machine W*D*H (cm)	38*63*76

Capacity

Advised daily output (cups)	300
Produce 50ml/cup of Espresso per hour (cups)	140
